MD and SDoC templates for IHM

Template version 2026-11 · IMO MEPC.379(80) as amended by MEPC.405(83)

Who fills this in

The supplier of each product delivered to a ship (manufacturer, trader or agency) completes one Material Declaration (MD) per product and one Supplier's Declaration of Conformity (SDoC) covering the MDs it issues.

Where to type

Type only in the light yellow cells. Use the drop-down lists for Yes/No and units.

What to declare

For every material in Tables A and B, state whether it is present above the threshold value. If Yes, give the mass per one delivered unit and where in the product it is used. Ships under the EU Ship Recycling Regulation also need the EU SRR supplement (PFOS, HBCDD).

Example

The sheet 'MD example' shows a completed declaration for a non-asbestos gasket sheet.

Sending

Return the signed MD and SDoC (PDF or scan) to the shipowner, ship manager or IHM provider who requested them, quoting the purchase order number.

Legal basis

IMO Res. MEPC.379(80), 2023 Guidelines for the development of the Inventory of Hazardous Materials, Appendices 6 and 7, as amended by Res. MEPC.405(83); Regulation (EU) No 1257/2013; EMSA Best Practice Guidance on the IHM. Official texts are linked at www.mbhdenizcilik.com/ihm-resources/.
